Terminal Management System

- **Remote management** of large estates of Payter Terminals
- Efficient deployment through **Remote Key Injection**, configuration, updates and payment device firmware
- **Future proof system** in which changes in functionality can be applied easily, safely, and quickly, while reducing the Cost of Ownership.
- Continued **EMV compliance**
- Avoid expensive **Visits**
- Simplification of the logistics processes
- Easy **roll-out** process
- Easy addition of new services

Real-time Information

- Reporting of revenue including Cashless, Closed Loop (RFID) and Cash Transactions
- Product Sales Data
- Detailed monitoring of connections and errors
- Full control over your estate of terminals
- Free of Charge API available for direct download of the sales data into your ERP or Telemetry system

Telemetry

Payter Telemetry enables you to remotely monitor your machines by continually providing fresh data about:

- Product movement,
- Cash inventory and
- The physical condition of the machines.
- Transaction reporting for easy reconciliation

Reduced Footprint

ApolloMax

Powerful Features

Increased Convenience

- Ultra Slim
- 3.5 " Touch Screen
- 4G, WiFi, BlueTooth, LAN, Serial, USB
- QR Code/Barcode scanner
- Speaker / proximity sensor
- EMV
- Plug & Play
- Loyalty & Closed loop systems
- Telemetry
- Remote management via on-line back-office
- Advertising
- Vandal Proof, Robust, Waterproof
- Low power
- Supports PIN entry
- PCI 6.x
- Linux based
- Mounting behind glass front possible
- EVA mounting
